

ANGLE VALVES WITH NEW HANDLE DESIGN FROM 2026

Angle valve

1/2" - 1/2" **163-0002-00**

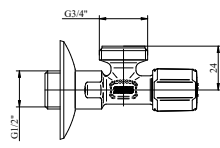

1/2" - 3/8" **163-0006-00**

Combine angle valve

150252800

- Washing machine and dishwasher connection – 3/4"
- Washbasin mixer connection – 3/8"
- Wall connection – 1/2"

Washing machine valve

163-0014-00

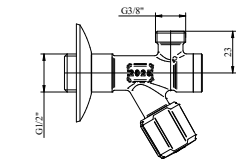

- 1/2" – 3/4"

Angle valve with filter

163-0010-10

- With stainless steel, removable and cleanable filter
- Connection: 3/8"

Easier opening and closing

New ergonomic handle

When connecting the valves, the use of packing hemp should be avoided!

Recommended materials: • thread sealing cord • PTFE tape

ANGLE VALVES

Reliable and safe solution

CERAMIC ANGLE VALVES

1- WAY & 2-WAYS

THE DURABLE AND SAFE SOLUTION FOR YOUR HOME

In the search for components for your plumbing installations, the choice of angle valves is crucial to ensure efficient and safe water flow control. Mofém angle valves represent a smart investment that offers a series of significant advantages for your home and your health.

1/4 TURN SHUT-OFF SYSTEM

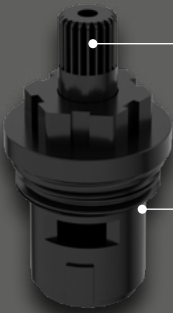

Thanks to the ceramic cartridge with a 1/4 turn shut-off system, you will only need to turn the handle 90 degrees to close or open the valve accurately and quickly, making it easier to use in situations where it is necessary to cut off the supply immediately.

Angle valves 1 way

Angle valves 2 ways

1/4 turn axis

Precise and fast opening and closing

2 Ceramic discs inside

High durability
Resistance to limescale
100% Leak tightness

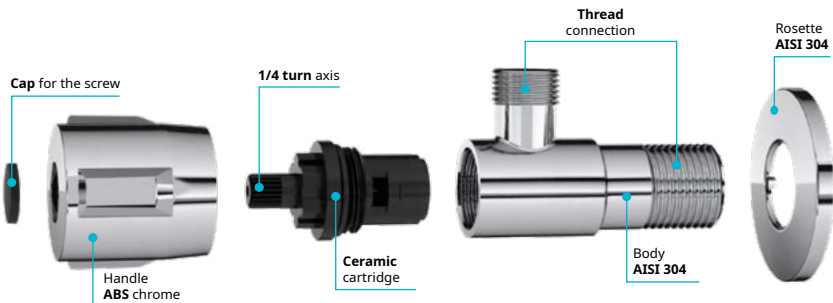

HIGH DURABILITY AND RESISTANCE

ANTI-LIMESCALE TECHNOLOGY

SAFE AND CLEAN SANITARY WATER

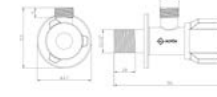

CERAMIC ANGLE VALVES

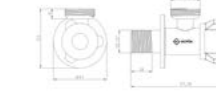

Ceramic angle valve

1/2" - 1/2" 163-0041-00

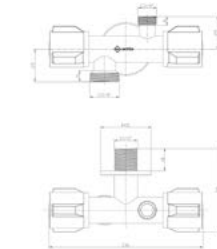

Ceramic angle valve

1/2" - 3/8" 163-0040-00

Ceramic washing machine valve

1/2" - 3/4" 163-0042-00

Ceramic combined angle valve

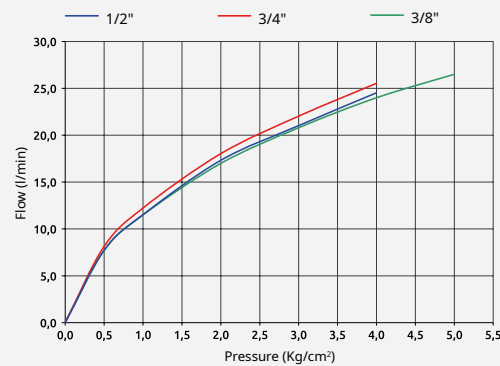

1/2" - 3/8" - 3/4" 163-0043-00

The measures of quality

Reliable performance under all conditions

Pressure (Kg/cm ²)	Flow (l/min)		
	1/2"	3/4"	3/8"
0,5	7,7	8,1	7,7
1,0	11,5	12,2	11,5
2,0	17,3	18,0	17,0
3,0	21,0	22,0	20,8
4,0	24,5	25,5	24,0
5,0			26,5

Fluid: drinking water and domestic hot water
Temperature range: cold and hot water until 90 °C

The angle valves have passed the leak tightness and durability test according to DIN3227 standard, exceeding 2,000 cycles of use. This products meet the mechanical, hydraulic, and acoustic requirements set by the EN-1213 standard surpassing a test of more than 10,000 cycles.

CERAMIC ANGLE VALVES

Control in your hands

1/4 turn for quick opening and closing

Fast and reliable operation when the water needs to be shut off immediately.

Carefully designed with attention to every detail
